PROFILE

Hardworking, enthusiastic college student with a specialization in 2D animation and traditional art working towards a B.A. in Animation at Columbia College Chicago. Bringing a motivated attitude and strong communication skills to the workplace. Seeking to utilize my love of art and film in a professional setting.

RELEVANT EMPLOYMENT

Director of a Short Film - Columbia College Chicago SEPTEMBER 2024 - PRESENT

- Oversaw a team of 26 fellow animation students, providing mentorship and fostering professional growth to enhance productivity and collaboration by 25%.
- Developed and implemented the creative direction for 2D animation projects, ensuring alignment with our class goals and audience expectations.

Production Assistant - Native Content AUGUST 2024 - AUGUST 2024

- Supported daily production tasks, including setting up and breaking down equipment, managing props, and assisting with lighting and sound adjustments to ensure smooth, timely operations on set.
- Facilitated communication between departments, relaying critical information between directors, crew members, and talent to streamline workflow and minimize downtime.
- Assisted with talent and crew management, including handling meal breaks, monitoring time, and insuring all personnel were informed and ready for their scenes.

Computer Lab Tech and Tutor - Columbia College Chicago SEPTEMBER 2023 - PRESENT

- Mentored and tutored students in 2D animation using a variety of different software, including ToonBoom Harmony and After Effects.
- Managed the rental process of animation equipment to students, overseeing equipment maintenance and upkeep to ensure optimal condition.
- Analyzed software performance on dozens of department computers, pinpointing and resolving issues swiftly to ensure student satisfaction and optimize work efficiency; reduced downtime by 30% and enhanced productivity significantly.

Motion Picture Television Department Lab Aid - College of Dupage JUNE 2022 - MAY 2023

- Used knowledge of film equipment, animation software, and editing software to assist students and increase student satisfaction by 25%.
- Created Excel spreadsheets to organized budget spending and create class schedules.
- Organized equipment used in film, television, and animation, which expanded worker efficiency by 30%.

EDUCATION
